PROFESSIONAL SUMMARY

Management Information Systems undergraduate at Emporia State University with hands-on experience in SQL, Python, business analytics, and database-backed dashboard development. Front-of-House Lead/Supervisor with experience in team coordination, customer service, and day-to-day operations. Interested in business analyst, data analyst, and information systems internship opportunities.

TECHNICAL SKILLS

Data & Analytics: SQL, SQLite, relational databases, joins, aggregations, Pandas, KPI reporting

Development & Tools: Python, Streamlit, GitHub, GitHub Actions, automated testing

Business & Operations: Team coordination, customer service, issue resolution, Microsoft Office

PROJECTS

Retail Intelligence | SQL Business Analytics Dashboard

• Built an interactive four-page retail analytics dashboard using Python, Streamlit, SQL, and SQLite.

• Analyzed a synthetic dataset of 1,500 orders and 250 customers using revenue, product, regional, and customer metrics.

• Implemented interactive filters, CSV exports, data-quality checks, and 13 automated tests with GitHub Actions.

• Live: nafim-sql-analytics.streamlit.app/ | Code: github.com/mdnafimalam/mdnafimalam/tree/main/projects/sql-business-analytics
